At Thunderstone, we listen to the same beats of the drums you'd like to hear and that is why when it comes to speakers, we craft only the best to suit your audio preference.

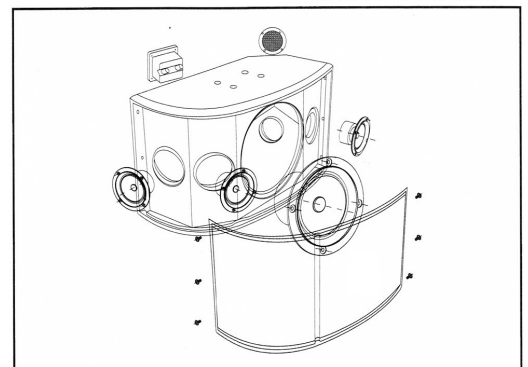

The LVA-118, delivers a full spectrum of soundscapes. With its multi angled drivers specially tuned to precise angles to reflect sound, four tweeters delivering 2k-20k, a 10" Woofer producing deep and warm notes and the overall 48Hz-20Khz covering your entire spectrum, we're sure your singing experience would be one you've never experienced before.

### Hanging Instructions

Please use LVA Speaker brackets.  
 Avoid mounting close to walls.  
 Leave a 3-inch distance from walls

Skeleton Structure

\*Tips: Constant use of speakers will soften the rubberised rings attached to the driver cone; Rubber may become brittle if left unused for long periods of time
